

ALLEY CREEK LONG TERM CONTROL PLAN

PUBLIC MEETING #2

Wednesday, May 1, 2013

Alley Pond Environmental Center

228-06 Northern Blvd., Douglaston, New York 11362

6:00pm to 8:00pm

DEP will provide a brief presentation at 6:30pm.

As part of the LTCP Program, DEP is developing comprehensive evaluations of long term solutions to reduce combined sewer overflows (CSOs) and improve water quality in New York City's waterbodies and waterways. The goal of each LTCP is to identify appropriate CSO controls necessary to achieve waterbody-specific water quality standards, consistent with the Federal CSO Policy and the water quality goals of the Clean Water Act.

At the meeting, you will learn about DEP's proposed alternatives, related water quality conditions and recreational uses for Alley Creek and Little Neck Bay.

HOW TO GET INVOLVED?

DEP staff will be available to answer any questions you may have.

To RSVP, please email ltcp@dep.nyc.gov or call DEP's Community Partnerships Office at (718) 595-3496.

Directions: visit the website at <http://www.alleypond.com> for travel by car or mass transit.
