

Free Child Care to Clients in Model Offices Expands

Children's Corners are now operated in seven FIA Model Job Centers. Parents who are conducting business at the Job Center can leave their children in the supervised Children's Corner while they are being interviewed. The first five sites, Riverview Annex, Fordham, Concourse, Queens and Jamaica opened in mid-May. These five locations served 322 children in May; by July that number had increased to 1,057 children served. The Children's Corners are staffed by individuals from ReServe and Easter Seals, both not-for-profit organizations that offer part-time employment to retired professionals. Children's Corners opened at the East End Model Job Center in July and the Linden Model Job Center in August.
