Re: Bus Shelters in CD4

Dear Commissioner Forgione:

Manhattan CB4 requests the installation of bus shelters at the following locations in our district. Many of our bus lines are unreliable with the M42, the M50 and the M11 having won the Straphangers' Pokey Award in recent years. Our residents sometimes wait for up to 45 minutes at bus stops. Short of fixing the service, we request that a minimum of comfort be provided to our ever-increasing number of seniors who use bus service.

After the highest priority locations indicated above with an (\*), crosstown and Ninth and Tenth Avenues stops should be addressed next; since this is where the service is most erratic and the wind prevalent.

With thousands of new residents in our districts, and 20% of them in affordable apartments, the total time spent waiting in the cold has been multiplied by a large factor. We appreciate your assistance in this matter.

Sincerely,
