

# 2004-05 NYC Residential and Street Basket Waste Characterization Study

<b>DIRECTOR'S NOTE</b> .....	<b>i</b>
<b>Glossary of Abbreviations and Definitions</b> .....	<b>v</b>
<b>EXECUTIVE SUMMARY</b> .....	<b>1</b>
MAJOR FINDINGS .....	1
CASE STUDY: Drivers of Capture Rates and Diversion Rates.....	6
ABOUT THE 2004/2005 WCS FINAL REPORT .....	8
WHERE AND HOW TO START USING THE STUDY .....	19
<b>OVERALL RESIDENTIAL WASTE (REFUSE + RECYCLING)</b> .....	<b>21</b>
HOW MUCH WASTE?.....	21
COMPOSITION OF NYC WASTE .....	21
HOW MUCH WASTE IS DESIGNATED FOR RECYCLING?.....	22
CITYWIDE DIVERSION RATES AND CAPTURE RATES .....	24
IMPLICATIONS FOR THE DIVERSION RATE.....	25
<b>RESIDENTIAL METAL, GLASS, PLASTIC, AND BEVERAGE CARTON (MGP) RECYCLING</b> .....	<b>27</b>
COMPOSITION.....	27
CAPTURE RATE .....	28
<b>RESIDENTIAL PAPER RECYCLING</b> .....	<b>31</b>
COMPOSITION.....	31
CAPTURE RATE .....	31
<b>RESIDENTIAL REFUSE</b> .....	<b>33</b>
COMPOSITION.....	33
HOW MUCH REFUSE SHOULD HAVE BEEN RECYCLED? .....	34
<b>STREET BASKET WASTE</b> .....	<b>35</b>
COMPOSITION.....	36
SUSPECTED ILLEGAL USE .....	37
RECYCLABLES IN THE STREET BASKET STREAM .....	37
THE POTENTIAL FOR STREETSIDE RECYCLING TO CONTRIBUTE TO DSNY-MANAGED DIVERSION	38
<b>THE EFFECT OF HOUSING DENSITY AND INCOME ON RESIDENTIAL WASTE</b> .....	<b>41</b>
WHO THROWS OUT THE MOST? .....	41
WHO RECYCLES THE BEST? .....	42
DIFFERENCES IN WASTE COMPOSITION BY STRATA.....	42

*The information herein has been compiled, analyzed, and reported by the DSNY Bureau of Waste Prevention, Reuse and Recycling, using data collected by its consultant R.W. Beck. These highlights do not substitute for a thorough review of R.W. Beck's Final Report, which contains more detailed data. Some percentages may not total exactly due to rounding.*

## 2004-05 NYC Residential and Street Basket Waste Characterization Study

<b>MULTI-UNIT HOUSING: STRUCTURAL BUILDING FACTORS AND RECYCLING SUCCESS .....</b>	<b>45</b>
DIVERSION RATES .....	45
CAPTURE RATES .....	46
CONTAMINATION RATES .....	46
<b>RESIDENTIAL WASTE: 1989/1990 COMPARED TO 2004/2005 .....</b>	<b>49</b>
A LOWER BASELINE FRACTION OF RECYCLABLES IN THE WASTE STREAM .....	49
A DECREASE IN RECYCLABLE PAPER.....	50
BEVERAGE CONTAINERS: A MOVE TO PLASTICS.....	51
AN INCREASE IN PLASTICS OVERALL .....	52
SHIFTS IN WASTES OTHER THAN PAPER, METAL, GLASS AND PLASTIC .....	52
WASTE GENERATION: THEN AND NOW.....	53
<b>COMPARISON TO THE EPA'S NATIONAL MUNICIPAL WASTE CHARACTERIZATION STUDY ..</b>	<b>55</b>
<b>NYC'S RESIDENTIAL WASTE COMPARED TO SEATTLE'S RESIDENTIAL WASTE .....</b>	<b>59</b>
COMPARING COMPOSITION .....	59
COMPARING CAPTURE .....	61
<b>FOCUS ISSUES .....</b>	<b>63</b>
FOCUS ON RESIDENTIAL PLASTICS .....	63
FOCUS ON RESIDENTIAL YARD TRIMMINGS .....	69
FOCUS ON RESIDENTIAL APPLIANCE AND ELECTRONICS WASTE .....	75
FOCUS ON RESIDENTIAL TEXTILE WASTE .....	79
FOCUS ON RESIDENTIAL DRINK CONTAINER WASTE.....	81
FOCUS ON DURABLES.....	85
<b>GUIDE TO THE TABLES.....</b>	<b>101</b>
<b>OVERVIEW OF THE TABLES .....</b>	<b>103</b>
<b>DETAILED LIST OF TABLES.....</b>	<b>105</b>
