22. *New York City Construction Code*, §BC-1625 (effective July 1, 2008).
23. *New York City Fire Code*, §FC-101.2 (effective July 1, 2008).
24. For more information on retrofitting existing commercial buildings, see: Federal Emergency Management Agency, *Incremental Protection for Existing Commercial Buildings from Terrorist Attack: Providing Protection to People and Buildings*, Risk Management Series, no. 459, April 2008 [hereinafter cited as “FEMA 459”].

Chapter One: The Threat to Buildings from Explosive Devices

1. U.S. Department of Homeland Security, Science and Technology Directorate, *National Plan for Research and Development in Support of Critical Infrastructure Protection*, 2004, http://www.dhs.gov/xlibrary/assets/ST_2004_NCIP_RD_PlanFINALApr05.pdf; FEMA 430, Ch. 1, p. 12.
2. U.S. Department of Defense, *Report of the DoD Commission on Beirut International Airport Terrorist Act, October 23, 1983*, December 20, 1983, p. 99, <http://www.ibiblio.org/hyperwar/AMH/XX/MidEast/Lebanon-1982-1984/DOD-Report/index.html>; FEMA 430, Ch. 1, pp. 13-14.
3. FEMA 430, Ch. 1, p. 17.
4. Insurance Information Institute, “Terrorism: Worst Terrorist Attacks Insured Property Losses,” www.iii.org/media/facts/statsbyissue/terrorism/?table_sort_745205=7.
5. FEMA 430, Ch. 1, p. 21.

6. American Academy of Actuaries, “Actuaries Disclose Potential Terrorism Costs,” March 31, 2006, <http://www.actuary.org/pdf/casualty/terrorism0306.pdf>.
7. Library of Congress, Congressional Research Services, *Iraqi Refugees and Internally Displaced Persons: A Deepening Humanitarian Crisis?*, Rhoda Margesson, Jeremy Sharp, and Andora Brunno, October 3, 2007, p. 10, <http://fpc.state.gov/documents/organization/94104.pdf>.
8. Hala Gorani, “Hotel Blasts Kill Dozens in Jordan,” *CNN*, November 10, 2005, <http://www.cnn.com/2005/WORLD/meast/11/09/jordan.blasts/index.html>.
9. Primary structural elements are defined as those structural elements that provide the majority of the building’s capacity for carrying loads.
10. FEMA 426, Ch. 4, p. 6.
11. FEMA 426, Ch. 3, p. 10.
12. Eve Hinman, “Blast Safety of the Building Envelope,” *Whole Building Design Guide*, http://www.wbdg.org/resources/env_blast.php.
13. Robert Smilowitz, email message to NYPD, November 28, 2008.
14. FEMA 430, pp. 20-21.
15. Robert Smilowitz, “Designing Buildings to Resist Explosive Threats,” *Whole Building Design Guide*, http://www.wbdg.org/resources/resistexplosivethreat.php?r=secure_safe.

Chapter Two: The NYPD Risk-Tiering System

1. For example, FEMA’s risk equation is: Risk = Asset Value x Threat Rating x Vulnerability Rating. FEMA 426, Ch. 1, p. 36. For other types of risk analysis see Nancy A. Renfro and Joseph L. Smith, “Threat/Vulnerability Assessments and Risk Analysis,” *Whole Building Design Guide*, <http://www.wbdg.org/resources/riskanalysis.php>.
2. For example, a general threat to subway systems worldwide emerged after the 2004 Madrid bombings.
3. FEMA 430, Ch. 2, p. 9.

4. NIST NCSTAR 1A, pp. 18-21, 47-48.
5. The NYPD Counterterrorism Bureau can assist in determining risk levels for neighboring buildings.
6. All values are expressed in 2009 dollars.

Chapter Three: Guidelines on Perimeter Security

1. See *Zoning Resolution of the City of New York*, §35-24 (effective July 2008), §35-63 (effective July 2001), and §81-83 (effective April 1983).
2. FEMA 430, Ch. 5, pp. 6-7.
3. U.S. Department of Defense, *Report of the DoD Commission on Beirut International Airport Terrorist Act*; FEMA 430, Ch. 1, pp. 13-14.
4. FEMA 430, Ch. 5, pp. 6-7.
5. FEMA 430, Ch. 4, p. 10.
6. U.S. Department of State, Bureau of Diplomatic Security, Office of Physical Security Programs, *Certified Anti-Ram Vehicle Barrier Ratings: SD-STD-02.01*, Revision A, March 2003.
7. *Rules of the City of New York*, Title 34, §7-06(c)(3).
8. *Rules of the City of New York*, Title 34, §7-04(a)(20)(i).
9. Rebecca Grant, "Death in the Desert," *Air Force Magazine* 89, no. 6, June 2006, <http://www.airforce-magazine.com/MagazineArchive/Pages/2006/June%202006/0606Desert.aspx>.
10. FEMA 426, Ch. 2, pp. 16-19.
11. FEMA 426, Ch. 2, p. 11.

Chapter Four: Guidelines on Building Design

1. FEMA 426, Ch. 2, pp. 7-8, 13.

2. The NYPD Counterterrorism Bureau can assist in determining risk levels for neighboring buildings.
3. Secondary structural elements are defined as those structural elements that support the building's architectural elements and provide supplemental support for the building's primary structural elements.
