

	Organization	Program name	Description	URL	Contact
1)	Argus Community	New Leaf	Training program for the homeless population. New Leaf provides job readiness and independent living skills, while training participants to grow plants and herbs in two greenhouses and an open garden. Participants also use the herbs to help produce vinegar. All produce and products are then sold with the help of participants in greenmarkets throughout New York City.	www.arguscommunity.org	760 East 160th Street Bronx, New York 10456 (718) 401-5700
2)	Association for Energy Affordability	AEA Training Center	AEA has many training programs for the following areas: energy efficient building operations specialist, multifamily building analyst, hydronic heating system designer, small home trainings (building analyst and envelope specialist).	www.aeanyc.org	505 Eighth Avenue, Suite 1801 New York, NY, 10018 Phone: 212.279.3902
3)	Ando International	Environmental training courses	Ando International has more than 25 EPA-accredited courses in remediation, building operations and maintenance, and OSHA construction.	www.andointernational.com	44-01 21st St (3rd Floor) Long Island City, NY 11101 (718) 349-3235
4)	Brooklyn Center for the Urban Environment	Urban design, urban ecology, and early childhood education programs	Professional development programs used to promote and educate the community to shape the sustainable development of New York City.	www.bcue.org	168 7th Street Brooklyn, NY 11215-3147 phone: 718.788.8500
5)	Brooklyn Economic Development Corporation	Initiative for a Competitive Brooklyn (ICB)	ICB is creating a curriculum for its construction program that includes Green Advantage® certification, tax workshops, LEED familiarity, as well as safety, legal and technical assistance.	www.bedc.org	175 Remsen Street, Suite 350 Brooklyn, NY 11201 (718) 522-4600

	Organization	Program name	Description	URL	Contact
6)	Building Owners and Managers Association International	BOMA Energy Efficiency Program (BEEP)	An innovative operational excellence program to teach commercial real estate professionals how to reduce energy consumption and costs with proven no- and low-cost strategies for optimizing equipment, people and practices.	www.boma.org	11 Penn Plaza - 22nd Floor New York, NY 10001-2091 Phone: (212) 239-3662
7)	CleanEdison	Training programs and courses	CleanEdison provides courses on energy auditing, solar & wind power training, as well as preparation for the LEED exam.	www.cleannedison.com	122 West 27th Street, 10th Fl. New York, NY 10001 Phone: (212) 659-3658
8)	Community Environmental Center	Internal training program	CEC provides training to perform the following energy conservation services: cellulose insulation, air sealing, blower door and pressure testing for LEED compliance.	www.cecenter.org	43-10 11th Street Long Island City, NY 11101 Phone: 718 784 1444
9)	Conservation Services Group New York (CSG)	Building Performance Institute certification training, renewable energy training	CSG provides training in all areas of building science—including building design, mold/moisture control, and HVAC expertise. CSG also educates consumers about the potential of renewable energy, and trains engineers to	www.csgrp.com	16 Court Street, Suite 1801 Brooklyn, NY 11241 (347) 442-3940
10)	Consortium for Worker Education (CWE)	Sustainable Mechanical And Retrofitting Training (SMART)	CWE develops large-scale workforce development projects to address the adult education training and employment/workforce needs of NYC employers and workers.	www.cwe.org	275 Seventh Avenue, 18th Floor New York, NY 10001 (212) 647-1900
11)	Council on New York Cooperatives and Condominiums	Training workshops for members	The Council provides green training for their members to keep them informed of the latest green trends and available public incentives.	www.cnyc.com	250 West 57th Street, Suite 730 New York, NY 10107 info@cnyc.com
12)	CUNY: Baruch College, The Steven L. Newman Real Estate Institute	Sustainability Certificate Program	The program offers a wide range of courses in sustainability related to real-estate, such as finance, marketing, project management, and a facilities maintenance course.	http://zicklin.baruch.cuny.edu/newman/	137 East 22nd Street Box C-0120 New York, NY 10010 Tel. (646) 660-6950
13)	CUNY: Building Performance Lab	Practicum and internship	The CUNY Building Performance Lab (BPL) is an emerging technical center that will provide applied engineering opportunities for work on “living lab” building systems. The internships are for CUNY students to learn building	www.cunyurbansystems.org	137 East 22nd St, #315 New York, NY 10010 (646) 660-6978
14)	CUNY: Bronx Community College	Center for Sustainable Energy courses	Continuing education courses in energy technology, building energy efficiency (with Building Performance Institute certification), basic and advanced (grid-tied and off-grid) photovoltaic design and installation, the business of	www.csebcc.org	2155 University Avenue, GML-104 Bronx, New York 10453 718-289-5332

	Organization	Program name	Description	URL	Contact
15)	CUNY: Bronx Community College	Energy Services and Technology (Associate in Applied Science degree)	Sustainable Design, Sustainable Product Development, Sustainable Materials and PV Installation.	www.bcc.cuny.edu	2155 University Blvd Bronx, NY 10453 (718) 289-5100
16)	CUNY: Kingsborough Community College	Energy efficiency courses	Through continuing education, courses are offered in building energy efficiency (with Building Performance Institute certification).	www.kbcc.cuny.edu	2001 Oriental Boulevard, Brooklyn, NY 11235-2398 718-265-5343
17)	CUNY: Medgar Evers College	Energy efficiency and construction management courses	Through its School of Professional and Community Development, offers courses in building energy efficiency (with Building Performance Institute certification) and construction management.	www.mec.cuny.edu	
18)	CUNY: School of Professional Studies	Energy services and technology courses	Undergraduate credit-bearing courses for energy efficiency in building systems; Building Operator Certification courses in conjunction with the CUNY Building Performance Lab.	www.sps.cuny.edu	101 West 31st St New York, NY 10001 (212) 652-CUNY
19)	CUNY: Borough of Manhattan Community College	Renewable energy, energy efficiency and construction management courses	Through continuing education, courses are offered in building energy efficiency (with Building Performance Institute certification), geo-exchange, RETScreen PV design, building science for architects and engineers, and construction management.	www.bmcc.cuny.edu	199 Chambers Street New York, NY 10007 212-346-8455
20)	CUNY: NY Designs at LaGuardia Community College	Sustainable design, renewable energy, and energy efficiency courses	Through NYDesigns, offers continuing education courses in sustainable product design and development, photovoltaic installation, and building energy efficiency (with Building Performance Institute certification).	www.lagcc.cuny.edu ; www.nydesigns.org	31-10 Thomson Avenue Long Island City, N.Y. 11101 718-482-7200
21)	CUNY: City College of New York, Grove School of Engineering and Division of Science	Earth System Science and Environmental Engineering BS and BE degree Program	Bachelors Degree	www1.ccny.cuny.edu	160 Convent Avenue New York, NY 10031 (212) 650 7000
22)	CUNY: New York City College of Technology	Environmental control, construction management and architectural technology degrees;	Associate Degree in Environmental Control Technology; Bachelor's Degree in Facilities Management; Certificate programs in sustainable technology and in environmental control (Air Conditioning Equipment, Heating Equipment,	www.citytech.cuny.edu	300 Jay Street Brooklyn, N.Y. 11201 1.718.260.5000
23)	Department of Consumer Affairs	Green Construction for Sustainable Housing	The course is an introduction to green building techniques.	www.nyc.gov/dca	42 Broadway New York, NY 10004 212-NEW-York

	Organization	Program name	Description	URL	Contact
24)	NYC District Council of Carpenters Labor Technical College	Building Works	The program provides training for work readiness, environmental remediation, carpentry, worker health and safety training, and construction.	www.nycdistrictcouncil.com	212-366-7500
25)	Doe Fund	Ready, Willing and Able	The program provides training in plumbing, carpentry, electrical, building performance, OSHA, mold and toxins.	www.doe.org	232 East 84th Street New York, NY 10028 212-628-5207
26)	Envirolution/Lower East Side Ecology Center	NYC Small Business Environmental Sustainability Program	The program targets youth and provides training and education in energy auditing, carbon emissions, advocacy, environmental assessment, and green business marketing.	www.envirolution.org	
27)	Green Builder Media	Green Builder College	Green Builder College offers online certification and continuing education to professionals in the housing sector in areas such as green buildings, energy basics, energy efficient homes, moisture management and water	www.greenbuildercollege.com	123 West 1st Seattle, WA 98030
28)	Green Worker Cooperatives	Green Worker Academy	GREEN WORKER COOPERATIVES is a South Bronx-based organization dedicated to incubating worker-owned and environmentally friendly cooperatives in the South Bronx.	www.greenworker.coop	461 Timpson Place Bronx, NY 10455 Telephone: (718) 617 7807
29)	Greenstreet Construction	Green Advantage ®	Green Advantage® is an environmental certification for building-related practitioners - primarily contractors, subcontractors and trades people. Commercial, Residential, and Commercial/Residential Certifications are	www.greenstreetinc.com	68 East 131 Street Suite 600 New York, NY 10037 212-234-1027
30)	Hudson Valley Community College	Center for Energy Efficiency and Building Science (CEEBS)	CEEBS develops and delivers Workforce Development building-science training in New York State. The training, which is recognized by the Building Performance Institute (BPI), provides building-science instruction to building	http://www.getenergysmart.org/Training.aspx	Headquartered at Hudson Valley Community College in Troy, NY 80 Vandenberg Ave.
31)	International Union of Operating Engineers Local 94	Energy conservation and green training courses	The International Union of Operating Engineers Local 94 provides training in energy conservation and LEED test preparation.	www.local94.com	331-337 West 44th Street New York, NY 10036 (212) 956-4854
32)	Mount Hope Housing Company	Construction training	Mount Hope provides training in green construction.	www.mounthopehousing.org	2003-05 Walton Avenue Bronx, NY 10453 718.299.2051

	Organization	Program name	Description	URL	Contact
33)	New York State Weatherization Directors' Association	Weatherization Assistance Program	The program covers 22 types of training, from air infiltration, residential heating, and diagnostic pressure to health and safety. NYSWDA is a BPI affiliate member.	www.nyswda.org	5869 Fisher Rd, East Syracuse, NY 13057 (315)701-0440
34)	New York City Department of Parks and Recreation	MillionTrees Training Program	The MillionTrees Training Program is a collaborative initiative with the City of New York Department of Parks and Recreation and The New York Restoration Project that teaches and works towards a more environmentally sustainable healthy living for the future. It is a 7-month green-collar job training program that is specifically designed to train, educate and motivate young adults to become more aware and proactive in the wellness of the environment while jointly gaining employment and life skills.	www.milliontreesnyc.org	Info@milliontreesnyc.org
35)	New York City Department of Parks and Recreation	Parks Opportunity Program (POP)	POP's Education Horticulture Program offers welfare-to-work trainees on-the-job training and extensive vocational education preparing them for employment in the field of horticulture. The one year program provides vocational training with industry leaders such as TreesNY and the New York Botanical Garden where trainees learn the foundations of soil science, plant identification, greenhouse operations and ecological restoration. This classroom training is complemented by on-the-job work experience in NYC's parks, gardens and nurseries. Additionally, through in-house programming, trainees receive driver training (both Class D and Commercial Drivers License), Adult Basic Education instruction and GED preparation services. At the completion of the vocational training, trainees work closely with POP 's job developers and employment counselors to find employment.	www.nycgovparks.org	24 West 61st Street New York, NY 10023
36)	Nontraditional Employment for Women (NEW)	Blue Collar Prep and NEW at Night	NEW prepares women for nontraditional careers in the construction, utilities, and transportation industries. The pre-apprenticeship training programs include a mix of hands-on training, classroom instruction, job development and	www.new-nyc.org	243 West 20th Street New York, NY 10011 (212) 627-6252

	Organization	Program name	Description	URL	Contact
37)	Phipps Community Development Corporation	Growing through Greening	Growing through Greening creates and restores community gardens and parks. The program is designed to educate participants and spark their vocational interest in the fields of environmental science and horticulture.	www.phippsny.org	902 Broadway New York, NY 10010-6033 Phone: 212-243-9090
38)	Solar One	Green Design Lab	Solar One provides a training on building retrofitting, energy auditing, weatherization, mechanics and engineering, and solar installation.	solar1.org	2420 FDR Drive, Service Road East New York, New York 10010 Phone: 212 505 6050
39)	St. Nicholas Neighborhood Preservation Corporation	Williamsburg Works	St Nicholas provides training on Environmental Remediation. Williamsburg Works is the workforce development arm of St. Nicholas Neighborhood Preservation Corporation. Williamsburg Works aims to help	www.stnicksnpc.org	St. Nicks Central Office: 11 Catherine Street, Brooklyn, NY 11211-2706 718 388 5454
40)	Steven Winter Associates, Inc. (SWA)	Multifamily building management and maintenance training	SWA provides training in multifamily management and maintenance to all levels of building staff. By introducing basic building science principles, participants learn how building systems interact and how to diagnose common	www.swinter.com	307 Seventh Avenue, Suite 1701 New York, NY 10001 Tel: 212-564-5800
41)	Support and Training Result in Valuable Employees (STRIVE)	Training	STRIVE provides training in EPA remediation, hazardous waste clean-up, and asbestos removal.	www.strivenewyork.org	240 E 123rd Street New York, NY 10035-2038 Phone: (212) 360-1100
