The following order was issued by John E. Wade, Superintendent of Schools, to the Superintendents and Principals of all of the schools in the City of New York. The Park Department welcomes the cooperation of the Board of Education in its efforts to combat vandalism in the city park system.

"Special Circular No. 112, 1943-1944

BOARD OF EDUCATION OF THE CITY OF NEW YORK
OFFICE OF THE SUPERINTENDENT OF SCHOOLS

June 27, 1944

TO THE SUPERINTENDENTS AND PRINCIPALS
OF ALL DAY SCHOOLS.

Ladies and Gentlemen:

Park Commissioner Moses has pointed to the prevalence of vandalism in the city's parks and made an appeal to parents to assist in putting an end to it.

May I ask you to bring to the attention of your pupils, before they leave for the summer vacation, the seriousness of the vandalism problem. Urge them to help preserve the beauty of the parks by example and by admonition to others.

The parks are maintained for children as well as for grown-ups. Parents help to pay for the maintenance of the parks. To destroy park property or other city property is not only an unlawful act but an act of folly as well, and moreover, deprives our people of the full enjoyment of their park facilities.

Will you enlist the aid of your students in combating vandalism and remind them of the cost to their parents and to them. Will you at the same time do all that you can to cooperate with the Park Commissioner in his efforts.

Very truly yours,

JOHN E. WADE,
Superintendent of Schools."

The Department of Parks announces the operation of its seventeen outdoor swimming pools and two beach bathhouses on a full time basis beginning Saturday, July 1st. The pools and bathhouses have been operating weekends only but with the closing of school, the swimming pools will be open from 10 A.M. until 10 P.M. daily. The bathhouses at Jacob Riis Park and Orchard Beach will be open until sundown.

On July 5th, the Park Department will start its Eighth Annual "Learn to Swim" Campaign. Experience in the present war has revealed that only 10% of the men entering the Armed Forces are skilled swimmers. The remaining 90% cannot swim at all or are mere novices. Two hundred and twenty-two persons lost their lives through accidental drownings in the waters surrounding New York City last year. In an effort to correct these conditions, to help save human lives and to make visits to the pools more enjoyable, a "Learn to Swim" campaign will be conducted from July 5th until August 11th, at the 17 swimming pools operated by the Department of Parks. Swimming lessons will be given on Monday, Tuesday, Wednesday, Thursday and Friday mornings - for boys at 10:30 A.M. and girls at 11:15 A.M., and the same afternoons for adults - gentlemen at 6:30 P.M. and ladies at 7 P.M. Non-swimmers desiring to register for these classes may do so by leaving their name and address at any of the swimming pool offices.

The swimming pools are located as follows:

**Manhattan**
- Hamilton Fish Pool - East Houston and Pitt Streets
- Colonial Pool - Bradhurst Avenue, West 145 to 147 Streets
- Highbridge Pool - Amsterdam Avenue and 173 Street
- Thomas Jefferson Pool - 111 to 114 Streets and First Avenue
- Carmine Street Pool - 23rd Street and East River Drive
- 60th Street Pool - 59 Street between Amsterdam and 11th Avenues
- John Jay Pool - 78 Street and East River Drive

**Brooklyn**
- Sunset Pool - 7th Avenue and 43 Street
- McCarren Pool - Driggs Avenue and Lorimer Street

The Name Band Dances will feature Mitchell Ayros and Art Paulson in the second week of the summer program in the City Parks.

Paulson and his orchestra will play on Monday, July 3rd at Grover Cleveland Playground, Stanhope Street and Grandview Avenue, Queens and on Wednesday, July 5th at Poe Park, 192 Street and Grand Concourse, Bronx. Art Paulson is best known throughout the South, but has "arrived" in New York dance circles, having played numerous hotel engagements here. The group has also played for many of the major college proms in the east, and has recordings and radio work to its credit.

Mitchell Ayros and his orchestra will play at the Central Park Mall on Thursday, July 6th, and at the Prospect Park Dance Area, 11 Street and Prospect Park West, Brooklyn on Friday, July 7th. All dances start at 8:30 p.m. The Mitchell Ayros orchestra has seven motion picture credits, having appeared in musicals for Universal and Metro-Goldwyn-Mayer. The orchestra has played leading theatres, hotels and ballrooms from coast to coast, and has made many recordings in its versatile style.

Other name bands have been lined up for the season, among them Glen Gray and the Casa Loma Orchestra, Lucky Millender, and Henry Jerome. These outdoor dances, sponsored by the Consolidated Edison System Companies, will continue through the summer months in the city parks. All park dance areas are smooth, well lighted, and within easy reach of transit facilities. Last year over 472,000 people enjoyed dances conducted by the Department of Parks.
Recently the press has printed quite a few letters relating to "vandalism in the city parks". Vandalism is a real problem which needs plenty of airing. Its yearly cost in labor and material runs to a substantial sum. We estimate that we spend at least $250,000 a year to repair such damage. Recently the situation has become more difficult because of the shortage of park employees, police and material.

The list of damage is almost endless. Drinking fountains are knocked to pieces; directional signs are pulled up or mutilated; portions of metal statues are bent and broken; marble statues lose their fingers, noses, ears, and any other parts which can be fractured with a cobblestone or bat; fences are cut; playground apparatus such as swings, see-saw boards and slides is pulled to pieces or bent out of shape; fixtures of all kinds are stolen, clogged up or broken; flagpole halyards are cut; walls are decorated with chalk, lipstick, asphalt or anything else which will leave a mark; paving blocks are uprooted and thrown into the river; bench slats are torn out by the thousand; limbs are torn from trees; bonfires are set in shrubbery to burn out acres of valuable plants; and hundreds of lamps are broken.

The problem has been the subject of a great deal of study by this department. I am frank to say we have not been able to solve it, and now we have war restrictions and war psychology against us. We have sponsored programs of education through the schools; we have set up special groups of young park guardians with badges; we have attempted to teach by example by requiring trouble-makers to work in the parks and playgrounds and to restore the damage they have done, but none of these expedients has been completely successful.
We can't plaster our parks with verboten signs, and then frighten, goose step and nazify our mixed population into automatic compliance with the orders of these robot policemen. After the war there must be competent park men, plenty of police and cooperative courts if we expect to keep the semblance of order and tidiness in our parks.

Some damage is caused by children through high spirits and thoughtlessness and some through downright viciousness. A relatively small number of vicious kids can do an incalculable amount of damage. It is silly to label every kid as a vandal who does the same destructive things we did at his age - but there is a limit beyond which we have long since gone here in New York. The war and manpower and other shortages have contributed to the immediate problem, but it is a certain brand of parents, not the children, who have wiped out the line between mischief and vandalism. These are the smart alecks who think liberty means that everybody can do everything he damn pleases. It is an astonishing fact that many parents regard complaints about destruction by their children as a hugh joke, and we repeatedly hear from them the statement that they are taxpayers and have a right to do what they please with public property. After all, this is primarily a problem of parental control and mothers and fathers should be brought directly into the picture. Children will keep out of a lot of trouble if they know something serious will happen when they get home.

We have received excellent cooperation from the magistrates who have jurisdiction in cases involving adults, in enforcing our park rules and regulations, and I have no complaint on this score. The imposition by magistrates of fines on adults has been very helpful.

On the other hand disciplinary action by the Children's Court whose jurisdiction extends to youngsters under sixteen years of age, and by the magistrate assigned to the Adolescent Court for the older group between sixteen
and twenty-one, has been ineffective and of little assistance to us. Disciplinary action by the Children's Court generally takes the form of a mild reprimand with the usual admonition, "Now be a good boy and don't do it again". There have been exceptional instances where a judge has seen to it that parents have not only made restitution for damage caused by their children but have been publicly reprimanded. In a few other instances of older boys who have been taken into Adolescent Court, cooperation of District Attorney and sympathetic judge has resulted in real and lasting benefits. In one such case, the parents made partial restitution to the city in cash, and the boys worked out the balance on Saturdays during a whole summer. At the end of their penance, they not only expressed their regret for what they had done, but went so far as to thank the park foreman and other members of the staff for straightening them out.

The real answer to vandalism is to make the parents take a lively interest in the actions of their children. Only the courts can impose fines. With their help we can bring these destructive forces within reasonable bounds.

The third season of Name Band Dances in the parks will open on Thursday, June 29th, at 8:30 P.M., when Frankie Carle and his orchestra play for the first dance on the Mall, Central Park. Frankie Carle will also play on Friday night, June 30th, at the Prospect Park Dance Area in Brooklyn. He is the winner of Orchestra World's poll as "The Outstanding Musician of 1943", and is well known as a recording pianist and composer.

A series of 54 outdoor dances has been arranged for the summer months in the city parks under the sponsorship of the Consolidated Edison Systems Companies. During the past seasons these dances have been extremely popular in serving the purpose of providing summer recreation for the men and women of the armed services on furlough in New York, the nation's host city. Gatherings as large as 15,000 have attended to dance or to listen to the music. As in the past, this year's music will come from bands that are nationally known and have proved their ability through radio, recordings, and personal appearances.

Some of the conductors who will appear this summer are Art Paulsen, Mitchell Ayres, Lucky Millender, and Glen Gray and his famous Casa Loma Orchestra. There will be outdoor dancing every evening somewhere in the five boroughs until September 15th. On Monday evenings name bands will play at locations scattered throughout the city; on Tuesdays dances are scheduled for various parks in Queens; on Wednesday there will be dancing at Poe Park, 192 Street and Grand Concourse, Bronx; on Thursdays on the Mall, Central Park; and on Fridays at the Prospect Park Dance Area, 11 Street and Prospect Park West, Brooklyn.

A cast of the Children's Opera Company of New York will give a performance of the opera, "Hansel and Gretel" by Humperdinck, at the Central Park Mall on Saturday, June 24th, at 8 P.M. These same children drew a capacity audience when they sang last Sunday afternoon in Times Hall.

Nine-year-old opera starlet Marie Menna will sing and act the role of Gretel, the girl in Humperdinck's fairy opera, and the role of the boy, Hansel will be sung by eleven-year-old Alice Movitz. Peter, the broom-maker, the children's father, will be enacted by Ellsworth Bryce, 15 years old; the mother, by Jean Leslie, 14 years; the Witch by Evelyn Kraus, 14 years; 13 year-old Teresa Giuliana will be the Sand Man; Marion Halo, 13 years, the Dew Fairy; and Dea deLorenzo, 13 years, the Waitress.

Twenty gingerbread children and fourteen angels from the Levinoff Children's Ballet bring the cast of the production to 41. Others will portray characters which have been introduced to add humor, novelty, and modernism to one of childhood's favorite tales. Felix Wolfes will conduct the orchestra and the production will be staged and directed by Eva Leoni.

Commencing Wednesday, June 21st, and continuing throughout the summer, the Heckscher Playground in Central Park (reached through the Seventh Avenue and 59th Street entrance) will be the scene of starlight dances for Service men of the United Nations every Wednesday evening from eight until eleven o'clock. Through the courtesy of the New York City Park Department, this playground, with its smooth asphalt surface, has been made available to the Hospitality and Welfare Committee of the New York City Defense Recreation Committee, the same Committee which for the past eighteen months has been sponsoring the highly successful indoor Monday evening dances for Service men on Broadway near Times Square.

These dances are for non-commissioned men. Their uniform is their admission. As in the case of the indoor dances, a number of dancing partners will be there by special invitation and men are asked not to bring their own partners.

The Heckscher Playground is a delightful place in which to cool off on a hot summer evening. For these dances it is being made even more attractive by flood lighting.

The Committee of ladies which supervises the Broadway dances will be on hand, and a cordial invitation is extended to all Service men who wish to attend these Wednesday evening dances.

DON'T forget the opening date: Wednesday, June 21st, at 8 P.M.

The Department of Parks announces that within the past week each of the three Red Deer in the Central Park Zoo herd has given birth to a fawn.

Rosie gave birth to a fawn on June 9, 1944. Lena brought forth her fawn on June 13 and Reda, not to be outdone, had her blessed event on June 15.

Rosie was born in the Central Park Zoo on June 6, 1939 and the other two mothers were purchased on January 18, 1944 to increase the herd. Lindy, the boss of the herd, is carrying his new antlers rather proudly.

The 10th annual city-wide championship of the American Ballad Contest for Barber Shop Quartets will be held on the Mall, Central Park, Tuesday, June 20th at 8:30 P.M.

The fifteen amateur male quartets singing for the city title are the winners selected from the forty-four groups which competed in the five separate borough contests which the Department of Parks conducted during the past week. All are exponents of the old-fashioned "barber shop" style of singing characterized by its "swipes" and close harmony.

The civilian quartets which will match notes on the Mall are the Southern Imperials, the Hot Towels, and the Victory Four, winners of the Manhattan contest; the Parade Grounds Quartet and the Downtown Melody Four representing Brooklyn; the St. Mary's Horseshoers, Club Harmony and The Fire Department Quartets from the Bronx; the Richmond Hill High Boys from Queens; and the McKee Vocational Teachers Quartet from Richmond.

In the service men's division, the Harmony Quartet of the United States Naval Frontier Base, the Four Soldiers of the 1240th Service Command Service Unit, the Jolly Mariners of the New York State Maritime Academy, the 629th Port Battalion Quartet and the Hippocrats of the Columbia Medical School will sing it out for the crown in their own special contest.

The judges are all experts in the field of "barber shop" singing and many of them have officiated in past American Ballad Contests. Among those bending a critical ear in the judges' box will be Mayor Fiorello H. LaGuardia, Governor Alfred E. Smith, Park Commissioner Robert Moses, Sigmund Spaeth, Luther S. Steward, William C. Handy, James F. Svans, J. Bailey Harvey, Paul T. Winslow, Frank W. Smith, Charles U. Powell, and Richard H. Gerard.

Each quartet will be permitted to sing two numbers, the combined singing time for both selections not to exceed six minutes. The first prize will be a twenty-five dollar War Bond for each member of the winning quartet in each division. Winners of second and third place will also receive valuable prizes.

Music for the evening's entertainment will be furnished by the United States Coast Guard Band of the Manhattan Beach Training Station. A portion of the program will be broadcast over WNYC from 9:30 to 9:55 P.M.

Due to the recent warm weather the Fall Webworm, which last year harassed citizens and devoured trees, has put in an early appearance.

The moths, which vary considerably in color from pure white to white spotted with black, are already hatching and will begin laying clusters of yellowish eggs on the undersides of leaves. When the eggs hatch, the caterpillars will feed on trees and shrubbery and spin silken webs which will become of great size and very unsightly.

This is the first generation of 1944 webworms. Another crop can be expected about midsummer. However, if trees are sprayed now and again about two weeks later, the infestation will be greatly reduced.

The correct spray is a solution of one tablespoon of Arsenate of Lead and one half tablespoon of wheat flour to a gallon of water.
Eighteen children's Pet Shows, originally scheduled to be held in Department of Parks playgrounds last Saturday and which were rained out on that date, will be held instead on Saturday, June 17, at 2:00 P.M.

Youngsters who were kept at home by Saturday's downpour will have an opportunity to display their pets at the shows which will be held at the following playgrounds:

The Park Department announces that after the evening session at the City Building, Flushing Meadow Park, on Sunday, May 14, 1944, both ice and roller skating will be discontinued.

Patronage of this facility has decreased rapidly during the past three weeks and with the recent warm weather, interest in this sport has become so low that the attendance no longer justifies continued operation of the rinks.

During this season 250,919 persons availed themselves of the ice and roller skating facilities. Of this number 33,699 were children admitted free on Saturday and school holiday mornings. 104,529 attended the afternoon sessions and 86,316 used the facility during the evening period.

The Department of Parks has erected near the southeast corner of the old reservoir in Central Park, a sign which describes in text and map the origin of the distinct glacial grooves in the rock ledge outcrop at that point.

These glacial grooves, the best preserved in Central Park, are typical of those found plentifully in other parts of New York State.

The sign reads as follows:

GEOLOGISTS ESTIMATE THAT 35,000 to 40,000 YEARS AGO, THE LABRADOR ICECAP COVERED THE EASTERN PART OF THIS CONTINENT AS FAR SOUTH AS STATEN ISLAND AND LONG ISLAND, WITH A GLACIER 5,000 FEET OR MORE IN HEIGHT. THE GLACIER CARRIED ROCK FROM CANADA, THE NEW ENGLAND STATES AND THE NORTHERN PART OF NEW YORK. SOME OF THESE CAN BE SEEN NOW IN CENTRAL PARK AS LARGE ISOLATED BOULDERS. EMBEDDED IN THE BOTTOM OF THIS GLACIER WERE ROCK MASSES WHICH IN THE PERIODIC EXTENSION AND RECESSION OF THE ICE, SCRATCHED, GROOVED AND POLISHED THE SURFACE OF THE ROCK OVER WHICH THE GLACIER MOVED. THE THREE GROOVES AND INNUMERABLE SCRATCHES IN THE HARD MANHATTAN SCHIST IN FRONT OF YOU AND TO THE RIGHT OF THIS SIGN, INDICATE THE NORTHWEST TO SOUTHEAST DIRECTION IN WHICH THE GLACIER MOVED. THE SURFACE OF THE ROCK WAS HIGHLY POLISHED AT ONE TIME BUT WEATHERING HAS ROUGHENED IT TO ITS PRESENT CONDITION.

Geologists estimate that 25,000 to 30,000 years ago the Labrador Icecap covered the eastern part of this continent as far south as Staten Island and Long Island with a glacier 3,000 feet or more in height. The glacier carried rock from Canada, the New England States and the northern part of New York. Some of these can be seen now in Central Park as large isolated boulders. Embedded in the bottom of this glacier were rock masses which in the periodic extension and recession of the ice scratched, grooved and polished the surface of the rock over which the glacier moved. The three grooves and innumerable scratches in the hard Manhattan Schist in front of you and to the right of this sign indicate the northwest to southeast direction in which the glacier moved. The surface of the rock was highly polished at one time but weathering has roughened it to its present condition.

The Department of Parks Children's Handcraft Exhibitions in all boroughs have been extended for another week. The shows, which opened on May 1st, will remain open until May 13th instead of May 6th as originally planned. The extension of the exhibitions is being made because of the unusual interest in this display of children's handmade articles. The exhibitions are located as follows:

- **Manhattan:** New York Public Library, 5th Avenue and 42nd Street
- **Brooklyn:** Brooklyn Museum, Eastern Parkway and Washington Avenue
- **Bronx:** Lobby of Bronx County Building, 161 Street and Grand Concourse
- **Queens:** Lobby of Queens Borough Hall, Kew Gardens
- **Richmond:** Staten Island Institute of Arts & Sciences, Stuyvesant Place, Staten Island

Among the articles displayed are many which show ingenious use of salvage material. Intricate carvings from outmoded furniture are used in decorative book racks and shelves, old cans and jars are transformed into outdoor lighting fixtures, and many useful articles are made from old clothing and draperies. The exhibition and contest are sponsored by the New York Community Trust.

In the borough contests, prizes of $10.00 in War Saving Stamps will be awarded as first prize, and $5.00 in War Saving Stamps as second prize. A city-wide exhibition will follow the borough shows, with the best articles being displayed at the American Museum of Natural History, Education Hall, West 77th Street and Central Park West, Manhattan, from May 21st to May 30th. First, second, and third prizes will be awarded at the final exhibition.
The Tenth Annual American Ballad Contest for Barber Shop Quartets will be held on the Mall, Central Park, on Tuesday, June 20th, at 8:30 P.M. according to an announcement made by the Department of Parks. The contest, which is open to amateur male quartets, has become one of the yearly high spots in the park's recreation program for adults.

The competition will be divided into two classes: service men and civilian. Each quartet will be permitted to sing two numbers or two medleys, or a combination of one number and one medley. The combined singing time may not exceed six minutes, and singing is to be done without instrumental accompaniment.

Selections must be of the "barber shop" or American ballad type. This classification includes such old favorites as, "After the Ball", "I Had a Dream Dear", "My Mother Was a Lady", and all those other numbers which lend themselves to the "barber shop" technique. Among the factors which the judges will consider in selecting the winning quartets, are tone, rhythm and harmony, technique, originality, interpretation, expression and phrasing.

Preliminary contests will be held in the five boroughs and the winning quartets in each borough will be qualified to sing for the Metropolitan Championships on the Mall on June 20th. Prizes will be awarded to the winning quartet of each borough elimination and to the first, second and third place winners of the City Finals.

Entry blanks may be obtained at all Department of Parks borough offices, located in Manhattan at the Arsenal, 64th Street and 5th Avenue, in Brooklyn at Litchfield Mansion, 5th Street and Prospect Park West, in Queens at the Overlook, Union Turnpike and Park Lane, Kew Gardens, in the Bronx at Bronx Park East and Birchall Avenue, Bronx Park and in Richmond at Clove Lakes Park, Victory Boulevard and Clove Road, West New Brighton.

This will be the first of a series of 26 track meets that have been scheduled through May and June on the Triborough track and on other park cinder paths throughout the city.

The opening meet at the Triborough Stadium will be followed by the Boys' High School Athletic Games on May 13th, the Catholic High Schools Athletic Association Championships on May 27th, the P.S.A.L. Championships on June 3rd, the Metropolitan Association A.A.U. Senior Championships on June 10th, the National A.A.U. Junior Championships on June 17th, the National A.A.U. Senior Championships on June 18th, and the Spring Invitation Games of the New York A.C. on June 25th, all on the same track.

In addition to the Triborough Stadium meets, a large calendar of track events has been set up for the other 16 running tracks in the city's park system. Track meets scheduled for the borough of Manhattan and to be held at the Riverside Drive and 74th Street track are the Buckley School meet on May 20th, and the High School of the Blessed Sacrament meet on May 25th. In addition to regular meets, training sessions are also held on this track by the High School of Commerce and De LaSalle Institute.

Brooklyn's track and field plans include three meets at the Red Hook Stadium, Bay and Columbia Streets; two of them Catholic High School meets on May 16th and May 23rd, and the Catholic Youth Organization Championships on June 10th. At the McCarren Park track, Driggs Avenue and Lorimer Street in Brooklyn, the Young Men's and Young Women's Hebrew Associations and the Hebrew Parochial Schools will conduct meets on May 11th; Brooklyn High School of Automotive Trades meet will follow on May 17th, and the meet of the National Counsel of Young Israel on June 4th.
Brooklyn's Red Hook track is also being used for training and work-outs by many borough schools, including St. Francis Prep, Manual Training High School and St. Augustine's High School. The McCarren Park track is used for the same purpose by LaSalle Academy and Bishop Loughlin High School.

At McCombs Dam Park track in the Bronx, adjoining Yankee Stadium, athletes of the High School of Commerce will take over on May 10th, and will be followed by Murray Hill High School on May 17th, the School of Industrial Art on June 9th and the Grover Cleveland Athletic Club on June 11th. The Pelham Bay track in the same borough will also be busy, with the McBurney School meet on May 5th, the Moeschen Club for Boys meet on May 13th, the Young Men's Hebrew Association meet on May 14th, the Bronx House meet on May 21st, and a double-header on May 28th, with the East Bronx Community YMHA conducting the morning meet and the Jewish East Side Settlement following up in the afternoon.

The Bronx will also be host to the Metropolitan Association of the A.A.U. when that organization holds its Junior Championships on May 28th at Van Cortlandt Park.

Victory Field at Woodhaven Boulevard and Myrtle Avenue in Queens will be the scene of the Catholic Youth Organization meet on June 3rd. Victory Field is used regularly for training by Richmond Hill High School and the East New York Vocational High School.

The Department of Parks also maintains and operates tracks in Brooklyn at Betsy Head Park; Neptune Avenue and West 23 Street and at Colonial Road and 83rd Street; in the Bronx at Williamsbridge Oval and Rice Stadium; in Queens at Liberty Park, Astoria, John Adams and Jackson Heights Playgrounds. All tracks are quarter mile with the exception of John Adams which is one-fifth of a mile and the tracks at Riverside Drive and 74th Street and Jackson Heights playground which are one-eighth mile each.

The Park Department receives annually many requests by telephone and mail asking for help in eliminating and controlling caterpillars that are infesting and destroying fruit and shade trees on private property.

The department is not permitted to do work on other than city property and although spraying of park and street trees will protect trees actually sprayed, it will result in little control of any infestation unless the owners of trees on private property do their share at the proper time. It is advisable for complete control to spray when the leaves first appear and then on the following dates: May 15, June 1, June 15, July 10, and August 1.

The most offensive leaf destroying insects and the method of control are:

1. The American Tent Caterpillar (Malacosoma americana). The unsightly nests of this insect may be observed in the early spring. The caterpillars are velvety black, with a white line along the middle of the back, and alternate dots of blue and white along each side. After about 5 weeks feeding the caterpillars are about 2 inches long. As they feed they spin a web or tent over the branches and leaves. The moths are a dull, reddish brown, and have a wing spread of about 1 1/2 inches. Their eggs are laid in ring-like masses which encircle the twigs, and which hatch in the spring.

For control it is recommended to remove and destroy as many egg masses during the winter as can be seen; also remove the tents and webs when they are small and burn them. As soon as the leaves break out apply a spray solution of one pound of arsenate of lead to 25 gallons of water, followed with a second spraying 2 weeks later.

2. The Fall Canker Worm (Alsophila pometaria). The caterpillars are commonly known as measuring worms or loppers. They are black in color, with 3 narrow white stripes, and a broad yellow-lemon stripe on each side. This insect is at times a very severe defoliator, working largely in the tops of trees. The wingless female moth lays her eggs for the most part in the fall in clusters on the branches of the trees. The eggs hatch out about the time the leaf buds open.

The
caterpillars feed about a month, then go into the ground where they spin a cocoon, emerging as moths, around November or early spring.

Recommendations for control: apply a spray of one pound of arsenate of lead to 25 gallons of water as soon as the leaves emerge. A second application should be applied 12 to 14 days later. As the female canker moth cannot fly, the banding of the trunks with a material that would prevent the moths from ascending the trees to lay eggs, has been practiced as the means of control. A sticky tree banding substance is most commonly used, and can be purchased at most stores that sell horticultural supplies.

3. The White Marked Tussock Moth (Hemerocampa leucostigma). This insect is one of the most destructive leaf eaters. The male moths are ashy-gray in color. The female moths are wingless. The white frothy egg masses are laid on the trunks and limbs of trees and are quite conspicuous during the winter months. When full grown, the caterpillars are about one inch long with a red head, and 2 long black plumes just behind the head and another at the other extremity of the body. Just behind the fore plumes are 4 yellow brush-like tufts with 2 red spots behind them on the back. They feed from 4 to 5 weeks, beginning around May 15th and then spin a grayish silken cocoon. Two weeks later the moth appears and immediately lays eggs. The second generation begin feeding about July 15th.

Control. Spray with a solution of one pound of arsenate of lead to 25 gallons of water as soon as young caterpillars emerge about May 15th. Follow with a second application 12 to 14 days later. As the second generation starts feeding about July 15th, apply an additional spray at this time, followed by a fourth application 12 to 14 days later. Hand picking or removing the egg masses with a wire brush will help considerably in cutting down the infestation.

4. The Bag or Basket Worm (Thyridopteryx ephemeraeformis). The caterpillars of this insect begin to emerge in June, and start the construction of a bag, which is made from particles of leaves, and fastened together with silk, and is carried about wherever the larva goes. Early in September the larva secures the bag to a small twig. The male moths are black with a wing expanse of about one inch. The female moth is grub-like, and wingless, never leaving the bag in which
she deposits her eggs. Several hundred to two thousand eggs have been counted in a mass. The winter is passed in the egg state within the bag.

Control. Spray the trees about June 1st with a solution of one pound of arsenate of lead to 25 gallons of water. Apply a second application from 12 to 14 days later. Hand picking of the bags and burning them will destroy thousands of eggs.

5. The Fall Web Worm (Hyphantria cunea). The caterpillars of this insect were responsible for completely defoliating thousands of trees in New York City, particularly in backyards of Brooklyn during the late summer of 1943. The caterpillars are of a greenish tinge, with a dark stripe along the side, and covered with light colored hair. The moths which vary considerably in color from pure white to white spotted with black, appear about July, lay their yellowish eggs on the underside of the leaves, and hatch out within 10 days. As the caterpillars feed, they spin a silken web, which later in the season may completely cover a tree.

Control. Remove the webs and burn them as soon as they appear. Spray with an application of one pound of arsenate of lead to 25 gallons of water, around July 10th, to be followed by a second application 12 to 14 days later. In spraying, it is most important to apply the solution on the underside of the leaves, as it is only in this area that the caterpillars feed.

Citizens are cautioned that pets and children too young to care for themselves should not be left unattended in areas that have been sprayed with arsenate of lead.

The opening of New York City park baseball season will take place on Saturday, April 22, according to an announcement made by the Department of Parks.

383 baseball diamonds will be ready for use by the amateur ball players of New York City; 136 of these are regulation grass diamonds and 247 are softball diamonds, some grass and others hard surfaced.

The number of applications for diamonds received by the Park Department from teams composed of boys 17 years of age and under is an indication that this age group will be busy playing baseball this season. Many requests for permits have been received from older men's teams who desire to play Sunday morning and twilight games. Numerous service men's organizations will also use the ball diamonds this season.

Permits for the use of the Park Department diamonds may be secured by sending an application to the Park Director in the borough in which teams desire to play. Weather and condition of the diamonds permitting, diamonds will be used four periods daily 10 A.M. to 12:30 P.M., 1 P.M. to 3:30 P.M., 4 P.M. to 6 P.M., and 6 P.M. to 8 P.M.

Dear Mrs. Gristede:

If you like the foreign parks so much, why don't you patronize them?

Very truly yours,

/s/ ROBERT MOSES
Commissioner
Commissioner Moses
Municipal Building
New York, N. Y.

Dear Sir,

Concerning the children's "playground" at 85th Street and Fifth Avenue — its filthy, in truth more "pen" than park and fit only for the use of pigs. The same litter is left from week to week with no attempt made to power flush or brush it away. The dirt and dog manure is unbearable. There is an attendant who seems to have no duties besides locking the gates. Granted, he doesn't bring the dirt or litter but as I, as a taxpayer, contribute to his salary, I expect him, in turn, to earn it.

Having seen the scrupulously clean parks of other Nations of the world maintained at a fraction of the cost of our famed one, I say with authority that Central Park, in toto is a disgrace to the City and the Nation.

In passing, "the war", or the "man power situation" is no excuse. Foreign parks are maintained solely by infirm city pensioners both men and women which makes the Old World one up on us in a "double-play."

Trusting this will receive your earnest attention, I am,

Very truly yours,

/s/ ZORAH W. GRISTEDE

Dear Editor:

The Park Department needs men and women for approximately 2500 seasonal jobs. Several hundred of these may be continued after the close of the summer season as temporary employees for the duration.

During the past two years, the department has suffered extensive losses of personnel through calls to the armed forces, to war industry, and through normal separations. Last summer the parks, and particularly the beaches, were more heavily used by the public than ever before. We have every reason to expect that the same condition will develop this summer. We have found that labor is even more difficult to get this year than last, and we are using every means available to inform the public of these summer jobs.

The vacancies are in the titles of Watchman, Assistant Gardener, and Attendant. The work is throughout the park system, particularly in the large park areas, on golf courses, and at the beaches. In May there will be additional vacancies for Attendant and Playground Director at the swimming pools, beaches, and playgrounds. Applicants must be citizens, from 17 to 69 years old. They must be able-bodied, although no physical examination is required. Draft deferred selectees are eligible. The jobs pay from $4. to $5.50 per day. The work is chiefly out-of-doors, generally not strenuous, and should be attractive to people who prefer to be outside.

Applications may be filed by mail or in person at:

Manhattan: Arsenal Building
64th Street & Fifth Avenue
New York 21, N. Y.

Bronx: Bronx Park East & Birchall Ave.

I request that you publicize this condition as a public service.

Very truly yours,

The Department of Parks announces that 146 six-year old oriental planes, the first trees from the department's nursery on Rikers Island to be transplanted, have been placed at the parking field on Beach Channel Drive, Rockaway, just west of the Cross Bay Boulevard Bridge.

The 25-acre nursery on Rikers Island was established in 1940 not only to furnish the city's parks, parkways and streets with trees at low cost, but also to give the inmates constructive, healthful, outdoor work. Prior to the World's Fair, this was a garbage dump of the Department of Sanitation. Throughout the past four years, thousands of inmates have been cultivating, watering and spraying the trees which are mostly oriental planes, American elms and Norway maples.
The finals of the basketball competitions of the New York Community Trust Winter Sports Championships conducted by the Park Department will take place at the 69th Regiment Armory, 36th Street and Lexington Avenue on Saturday, April 1st, at 7:45 P.M. This will complete the winter tournaments.

In the Girls' basketball championship game, starting at 7:45 P.M., the team from St. Simon Stock School in the Bronx, is matched to play the team from Carmine Street Gymnasium from the lower west side of Manhattan.

In the Boys' Senior division, the basketball team from New Lots in the Brownsville section of Brooklyn will compete against the West 140th Street and Lenox Avenue Playground team from the Harlem section of Manhattan.

Tom Ryan, former Manhattan college basketball star, will referee.

Newbold Morris, President of the City Council, will present prizes to the city-wide winners of the outdoor skating, track, handball, indoor roller skating, table tennis and boxing competitions.

All of these events were part of the Winter Sports Tournament.

The Department of Parks announces that the contractor has been ordered to start work at the new playground on Lenox Avenue between West 143 Street and West 145 Street, Manhattan. This playground will provide a new and vitally needed recreation space in a densely populated section of Harlem.

The playground was originally planned in 1937 and was scheduled for construction in the late fall of 1941, but was delayed because of the scarcity of labor and materials. The plan was modified and the amount of materials requiring priorities greatly reduced. Substantially, all of the facilities originally contemplated will be provided in spite of these modifications.

The property was acquired by condemnation and title vested in the city on January 7, 1944.

When completed, the area will contain 9 basketball courts, 9 volleyball courts, 12 handball courts, 8 horseshoe pitching courts and 4 softball diamonds with concrete bleachers for spectators, a temporary comfort station and a large play area which can be flooded for ice skating when sub-freezing temperatures permit. There will also be two completely equipped playgrounds, one for small children of pre-school age and the other for older children, both located on the Lenox Avenue side of the area.

The various play areas will be separated from each other by fencing so as to provide proper control of the operation and the entire development will be attractively landscaped.

The construction of the permanent recreation building has been omitted at this time because of the difficulty in securing suitable materials. Plans are being prepared for this structure having an estimated cost of $250,000, and it will be constructed as part of the post war program. This will replace the temporary comfort station.

The playground is scheduled to be opened on Labor Day.
