  6. Presentation Images for Public Viewing

  Each proposer should include in the proposal a minimum of one interior view and one exterior view sketch or concept drawing (not photograph), suitable for public distribution or viewing and likely to encourage public interest in the vehicle as well as encourage greater knowledge of the vehicle concept. The images should be of the first vehicle they intend to deliver during the term of the contract. These images must be suitable for reproduction and may be submitted in digital format. If digital format is used, we ask that they be a 24 bit JPEG or TIFF file circa 2000 by 3000 pixels in size each.

  A proposer may opt to include other images in the proposal, but should clearly designate the images that are for public viewing. All other images will be viewed by proposal evaluators only.

  Images submitted for public viewing may be distributed or publicized by the City either online or by other means in order to solicit opinions or feedback from the general public on the proposer's vehicle and any such images submitted become the property of the City of New York and may be used at the City's discretion. If the images are distributed for public viewing, the names of the designers will not be shared. The public's opinion of the vehicle's design or iconic content may or may not be taken into consideration by the evaluation committee.
